James H. Yang

Livingston, New Jersey | Class of 2027

EDUCATION

Livingston High School | Expected graduation: June 2027

Carnegie Mellon University - Summer Program | June-July 2026
Global Cultures and Emerging Technologies: AI, ethics and intercultural perspectives.

PROJECTS & RESEARCH

AI moderation research | Ongoing
Compile a dataset of moderation prompts and experiment with retrieval-augmented generation to explore safer AI use in schools. Research is ongoing.

RoboLab | Summer program, 2026
Created a FIRST Tech Challenge robot simulation for robotics teams during Carnegie Mellon's Global Cultures and Emerging Technologies summer program.

AstralKitchen
Built an ingredient-based recipe application using AI, image recognition and a food database to help inexperienced cooks find approachable, healthy recipes using ingredients they have.

Creative cryptography & puzzles
Design alternate reality game puzzles that connect hidden messages with storytelling; solve ciphers collaboratively in Codebusters.

LEADERSHIP & SERVICE

Behind The Table | Co-founder & president
Maintain the nonprofit's website, organize events and member documentation, and reach out to professional players for interviews. The team raises over $2,000 annually.

Physics Club | President
Plan biweekly activities, recruit members and work with teachers to arrange competition opportunities.

Greater Princeton Alliance / ALYUS | Volunteer & program lead
Support food drives, community cleanups and performances at community centers; performed at the UN Concert for Peace.

MUSIC & ATHLETICS

Select choir baritone section leader; lead practice and help peers learn scores. Matchpoint Table Tennis Club captain; coach beginners, support summer camps and mentor teammates. Varsity cross country runner.

SELECTED HONORS

Computing & science:	USA Computing Olympiad Gold; American Computer Science League Senior Division finalist; ninth in state Science Olympiad Codebusters.
